### **Outline Format for Culturama**

In order to help organize your thoughts and a paper, you are required to hand in an outline. This is just a basic format, no full sentences or copying of information.

Each Roman Numeral is the main idea of a paragraph.

Each Capital Letter is a supporting detail for that paragraph.

Any numbers off the capital letter is a secondary or clarifying point.

Below is a basic example. Notice that if you have an A you must have a B and if you have 1 you must have 2. Every paragraph should be outlined in such a fashion, before writing the final paper.
